

## VOCA OVERVIEW

The Velocette Owners' Club of Australia evolved in the 1970's after initially being established as an overseas Centre of the English VOC. Today our independent and incorporated club has over 700 members.

VOCA publishes a quarterly A5 sized magazine called **Fishtail Downunder** – commonly referred to as FTDU. This is mailed to all club members. Our current Editor is using FTDU to publish many of the historic photos in his possession. Between quarterly issues of FTDU a newsletter is produced. Both journals have members' For Sale and Wanted ads for Velocette parts and machines.

The Velocette Club offers a mail order **spares scheme** to all financial members; payment can be made by credit card.

In October each year we hold our annual national gathering called the **Good Companions Rally**. This week long event rotates from State to State as local Centres volunteer their services to organise the rally. We regularly see members from all States and Territories on the entry list in addition to overseas entrants, with members from NZ, USA, Holland and UK often attending. The rotating State format ensures that we get to see some of the best motorcycling roads the country has to offer.

Most VOCA Centres around Australia organise local activities, meetings and rides. We also regularly join in with other classic motorcycle clubs on their events.
